Moretti, a name that evokes a tradition, a culture and an island, Murano, big as the world, the world of glass.

Rare fragments of history, these gems of irrepeteble and precious workmanship are miniature glass wonders, crafted with patience by illustrious ancestors. Giusy Moretti, a designer of great sensitivity, has searched within herself to find the colours, shapes and lights of tradition, and her jewellery are the interpretation of what her father, grandfather and great-grandfather have blown inside her soul.
